## AT THE PARSONAGE.

**Mr. T. C. Taylor, a Prominent Merchant of Campbellsville, and Mrs. Ermine Wilson Married at the Parsonage.**

### ONLY A FEW CLOSE FRIENDS PRESENT.

Last Thursday afternoon Mr. T. C. Taylor, who is a prominent merchant of Campbellsville, and Mrs. Ermine Wilson, one of the best known ladies of the Russell Springs section of Russell county, were married at 2 o'clock, in this city, by Rev. W. R. Wagoner, at the home of the minister.

Immediately after the ceremony the couple left for the groom's home, in Campbellsville.

The groom is a prominent merchant in his home town and has a large acquaintance throughout the State.

The bride is a very popular lady, and has spent eight or ten years of her life in the mercantile business, at her former home town, Russell Springs. Her manner of doing business won friends all over Russell county, all of whom will be glad to learn that she has been happily married.

The groom lived a widower several years, and the bride lost her first husband something like fifteen years ago. The News extends its best wishes.

## Death of a Good Woman.

Mrs. Delie Bryant, who was the beloved wife of T. J. Bryant, who is a merchant, doing business near Ozark, died last Wednesday morning at 2 o'clock. She was sixty-five years old, and had been an invalid for eleven years, being a victim of pulmonary trouble. She was tenderly cared for during her long affliction by her devoted husband and loving children. Neighbors were also constantly at her bedside, and the best medical attention was employed.

The deceased was a very religious woman, having been a devout member of the Christian Church for many years.

The funeral services were conducted by Revs. Nathan Murrell and P. M. Bryant, a large circle of relatives and friends being present to pay their last respects to the departed, who will be greatly missed, not only by the surviving husband and children, but by the entire neighborhood.

May the blessings of God rest upon those who have been so sorely bereft, and give them fortitude to sustain their great loss, a devoted wife and a loving mother.

She cannot come back, but they can go to her if they walk in the straight and narrow path that leads to eternal life. To meet wife and mother at the celestial gate is worth correct living to accomplish.

## Loose Leaf House at Burkesville.

The starting of a loose leaf house at Burkesville is a certainty. The stock holders met last Saturday, and finding that not enough money had been raised, subscribed an additional five thousand dollars, elected a Board of Directors, and let the contract for putting up the buildings. It will be a great enterprise, and very convenient to Cumberland and adjacent county tobacco growers.

In April issue of the American Magazine are interviews with James R. Mann, Republican floor leader of the House of Representatives, and Oscar W. Underwood, author of the present tariff law. Both make interesting and conflicting forecasts of our tariff needs after the war.

Besides the marriage licenses, heretofore reported, the following have been recently issued: Clell Burton to Lula E. Burton; Ben Conover to Pearly W. Grider; Lawrence C. Lawless to Annie L. Hadley; Wm. Burton to Carrie Harmon.

Ground was in fine condition for plowing this week, and the farmers were busy from the rising of the sun to the setting thereof.

All the bills passed by the last Legislature are published in to-day's News.

## Died at Moberly Missouri.

Last Sunday week Mr. W. F. Jeffries, who was known in this county as Flood Jeffries, died at his late home Moberly, Mo., aged about 59 years.

The deceased was a son of T. P. Jeffries, who died in Adair county many years ago. He was born in Russell county, removing to this county, with his parents, when only a small boy. He grew up and married here, removing to Missouri twenty or more years ago. He was a good business man, and for a long time, traveled for a wholesale house.

Several years ago he met with a stroke of paralysis, followed by a fall, breaking one of his hips. From this accident he never recovered.

He was buried in his home town, the funeral services being largely attended.

Besides his wife he leaves a number of children, and to them, friends and relatives of Adair county extend their deepest sympathy.

Among his relatives here we name Horace, T. E. C. G. and Miss Mollie Jeffries, nephews and niece. His wife was Miss Ellen Reynolds, who was a daughter of Jas. H. Reynolds, deceased, and by that name there are a number of surviving relatives.

## Tacky Party.

Last Thursday night a most enjoyable time was spent by the young folks at the home of Mrs. Priscilla Dohoney, it being a surprise tacky party. About 7:30 o'clock the crowd gathered at the home of Miss Virginia Coffey and from there they marched to Mrs. Dohoney's home in a group, taking her by surprise. She was assisted by her daughter, Miss Tossie, in entertaining the young people until about 10:30. Refreshments were served and a very enjoyable time was spent. Master Fred Harris and Miss Amelia Dameron won the prize for being the tackiest couple and Miss Virginia Coffey won the prize on games. Every one regretted when the parting hour came. About 15 couples were present, besides several grown-ups who went to look on.

## "THE MAN WHO CAME BACK."

### Modern Woodmen Motion Pictures.

This picture will be given at the Parlor Circle Wednesday night, April 5th.

Under directions of Head Consul, A. R. Talbot, of Lincoln, Neb., the Modern Woodmen of America, is now booking a reel of 1,040 feet of motion pictures, entitled "The Man Who Came Back," featuring Robert Wilson, of Missouri, in a true and realistic film story of his part in the present war—not of bloodshed—but in the fight against and conquest of that menacing monster of the human flesh—tuberculosis. Wilson is one of the million members of the Modern Woodmen of America. Discovering that he is afflicted with this disease, he takes advantage of the comforts, care, and cure of the Sanatorium owned, maintained, and operated by that Society, free of charge to its members.

For several years that fraternal institution has thus actively and effectively co-operated in the world-wide movement advocated by the Red Cross and medical authorities, to stamp out the dread "white plague" and Wilson is the beneficiary of this Woodmen life-saving station. It is an intensely interesting and heart-gripping story of the leave-taking of wife and children.

Weak in body and hopeless in mind he journeys to the beautiful Rocky Mountain region near Colorado Springs, Colo., where, in the rarified climate and constant sunshine, at an altitude of 7,000 feet, he is destined to spend nine months at the foot of Mount Cedar, in the care of the most modern Sanatorium in the world. His experiences in "chasing the cure," his absolute rest from all cares and labor, his gradual return to health and strength, his "hikes" among the fragrant pines and over the rocky trails of the U. S. forest reserve, leased by and adjoining the Sanatorium, result in his final return to family and friends victorious over his foe. "The Man Who Came Back" is a thrilling and dramatic story—and absolutely true as well; indeed, his experiences have been duplicated by nearly 2,000 of his fellow Neighbors, who have already enjoyed the benefits of this justly celebrated institution. This film is pronounced by competent authorities to be one of the very best in this highly developed age of motion pictures, and is in such great demand that it can be booked for only one day and night in each town or city. It is a rare opportunity one can not afford to miss.

State Deputy, for the Modern Woodmen, J. W. DeHart, of Louisville, will be present and give a lecture while the reel is being run.

## Blankenship-Vance Wedding Solemnized.

(Times-Union, Jacksonville, Fla., March, 20.)

An interesting event of the past week was the marriage of Miss Nancy Murrell Vance, daughter of Mrs. Mattie Vance, and Mr. Elliot Eugene Blankenship, which was solemnized at the home of the bride on Monroe street Friday evening.

The drawing room, where the ceremony took place, was beautifully decorated, a pink and white color motif being effectively carried out with cut flowers, together with palms ferns and other potted plants.

Mrs. M. K. Jones presided at the piano, rendering an appropriate program of wedding music, and playing the Bridal Chorus from Lohengrin as the bridal party entered.

The bride was given in marriage by her brother, Mr. W. M. Vance, and little Miss Ellineor Mathison acted as ring-bearer, carrying the ring in the heart of a white rose.

The groom had as his best man Mr. Sam Roberts.

The ceremony which was witnessed by relatives and intimate friends of the couple, was performed by Rev. C. W. Mathison and Rev. Dr. F. Pasco.

The bride was charming in her wedding gown of white crepe de chine with lace and ribbon trimmings, and carried an arm bouquet of white carnations and lilies of the valley.

The little flower girl wore a frock of white lingerie with pink satin sash and hair ribbons.

Following the ceremony there was an informal reception, during which the couple received the congratulations of their friends.

During the reception hour a delicious refreshment course was served, Mrs. J. O'Quinn, Mrs. M. J. Hoiehan and Mrs. W. H. Roberts, Jr., assisting in serving.

The bride came to Jacksonville a couple of years ago from Columbia, Ky., and during her residence here has made many friends.

## MEXICAN INVASION EAS.? THERE ARE MANY MILES TO PUT BEHIND

Some idea of what it means to patrol the Mexican border can be gathered from the table below. And a further idea of what an invasion of Mexico as far south as Mexico City and east to Vera Cruz would mean is shown. The distances, except where noted otherwise, are in straight lines. It must be understood that an army traveling along the easiest routes would cover about twice as many miles as those given below.

From the eastern to the western end of the Mexican border the straight-line distances are:

From Brownsville to Laredo.....	225 miles
From Laredo to Del Rio.....	150 miles
From Del Rio to El Paso.....	350 miles
From El Paso to Bisbee.....	225 miles
From Bisbee to Yuma.....	300 miles

Starting from El Paso the invading Americans would cover the following distances to Mexico City:

El Paso to Chihuahua (by rail).....	472 miles
Chihuahua to Torreon (by rail).....	735 miles
Torreon to Zacatecas (straight line).....	270 miles
Zacatecas to Mexico City (straight line).....	365 miles
From Mexico City to Vera Cruz (by rail).....	264 miles

## SAVE THE SHEEP?

Every farmer ought to raise some sheep. Had you ever thought about how much clear money there is in a bunch of sheep? They will yield more money than most any thing else on the farm. We know of some flocks of sheep that have produced more than 200 per cent clear cash in less than 12 months. Now, what can beat that? Nothing but more SHEEP. Improve your sheep until you have the very, very best.

### VILLA'S TRAIL, MOST DESOLATE REGION IN WORLD.

El Paso, Tex.—The point chosen for the entrance for the punitive expedition into Mexico is at the verge of a dreary, desolate plain, inhabited principally by coyotes and prairie dogs, swept by sandstorms and denuded of vegetation except the cactus and a few other spiky and objectionable growths.

For at least thirty miles the United States troops must make their way across this desert. Then they will reach the lower range of the Sierra Madre Mountains, rising to a height of 3,000 to 3,500 feet, broken and twisted into all manner of fantastic shapes by volcanic action and barren of any verdure worthy of the name. Lonely, half civilized ranchmen are found here and there in the valleys, nursing their cattle at the infrequent and scanty water holes and subsisting almost entirely on beef. To offset the evil results of a continuous diet of beef, it is said they drink the blood of the cattle, which contains supposedly healthy salts.

There are no roads of any kind in all this region. An ancient track, known as the "smugglers" trail, is used by such traffic as passes through. The expeditionary force must carry all its own provisions and must in a large measure rely also on its base for water.

#### MUST INVADE MOUNTAINS.

After fighting its way against nature, assisted by whatever guerrilla troops Villa may be able to care to muster for about 120 miles through this country, the punitive expedition will reach the Sierra Madre proper, a range of mountains rising from 8,000 to 10,000 feet.

Americans who have penetrated these fastnesses claim that the region is one of the wildest, most barren and desolate that it is possible to find anywhere in the world. The mountains are split by canyons, some of which have a sheer depth of between 2,000 and 3,000 feet and there is not even a recognized trail through their solitudes. From Casas Grandes south, however, the country is thickly wooded, although devoid of vegetation which could provide forage for horses or food of any kind for men.

In the Casas Grandes section the expedition would strike the Casas Grandes River, which sweeps westward and here splits into three considerable branches. By following one of the branches the soldiers would be able to obtain sufficient water, but between the streams the mountains rise in great barriers, presenting a country almost inaccessible even to men on foot and, according to some reports, to wheeled transports of any sort.

It is in these wilds that Pancho Villa is said to have taken refuge and there to be prepared to wage a guerrilla warfare on the troops who have been ordered to pursue him to death or capture.

WED. MAR. 29, 1916

We do not know how many Democratic candidates will announce for Congress in the district. Mr. Helm, it is understood, will stand for renomination, and it is also said that Mr. Pickett, of Shelby county, is about ready to make his candidacy known. A gentleman in Madison county has also been mentioned, and one also in Casey. The voters of the district want to know who will be before them and the time is ripe for the information.

The loss from big fires, last week, is given as follows: Augusta, Ga., \$7,000,000; East Nashville, Tenn., \$1,500,000; Oklahoma oil well fires, \$200,000; Paris, Texas, \$5,000,000. The Kansas Prairie fires are not estimated. In the cities of Nashville, Augusta and Paris thousands of people were made homeless.

It is already said that candidates are piping for the next county race in Adair. The strings are being quietly pulled, and from what we can gather the woods will be full of aspirants when the time comes to take the field. It is the early bird that catches the worm.

Cole Younger, who was a noted bandit in years past, died at his home in Lee's Summit, Mo., on the night of March 21, 1916. He was one of the gang who robbed the bank and murdered its cashier, R. A. C. Martin, in this place, April 29, 1872. He was seventy-two years old.

Perhaps the loss in the United States, last week by fire, was the largest ever before known in the history of the country, save the great fire at Chicago, Ill., many years ago. The loss last week, as given by the daily papers, foots up to about \$12,000,000.

The report of special examiner Duffy shows that Barksdale Hamlett, late Superintendent of Schools was paid about \$66,000 more than he was entitled to receive. If there is a way, Hamlett's bondsmen should be made to pay over the amount to the State.

The hunt for Villa goes on and so does the bandit.

## WAR SITUATION

Unofficial advices from Rome report abandonment of Czernowitz, capital of Bukowina, by the Austrians.

There has been hard fighting of Czernowitz, and the Vienna War Office admitted the evacuation of the Austrian bridgehead at Tscieczko under Russian pressure. The Austrians fell back down the river to zale Szczyky, about thirty miles north of Czernowitz.

The Russians are continuing their westward advance in Turkish Armenia and it was reported that the Turks are evacuating Erzerum, which has been indicated as an objective of the Russians.

According to Berlin the Russians are not meeting with any success in their offensive against the German lines along the Dvina.

Both this Russian movement in the North and that in Galicia have been pointed to by military observers as counter offensives probably calculated to relieve the pressure on Verdun.

The battle of Verdun, now well in its fourth week, continues with intensity, but at present the infantry is held in leash while the big guns prepare for further assaults.

The power of the German thrust West of the Meuse, which developed early this week, halted when it reached the southern edge of Avocourt wood. But the activity of the German artillery in this sector, which Paris reports particularly violent, indicates that the German intention probably is to make further determined attempts to advance this important flanking operation.

The situation on the Eastern bank of the Meuse is unchanged but here, too, the artillery fire continues intense, particularly near Vaux and Damloup.

Russian warships are reported active in the Black Sea, where the 7,000,000 ton German steamer Esperanza, said to be loaded with foodstuffs, has been sunk off the Rumanian coast, according to advices from Bucharest. Sinking of a score of small sailing ships also is reported.

## U. S. SOLDIERS IN MEXICO.

On line of march of American Army, Mex., Mar., 22 (via courier to Columbus, N. M.)—The trail along which Pancho Villa retreated from Columbus less than two weeks ago is a broad, well-worn highway, visible at some points for miles as it winds

over and around the hills in Northern Chihuahua. The road is an evidence of the efficiency of the American Army which, in a week's time, has converted the trail across a semi-desert into a military road, the main artery for supplies to Gen. Pershing's punitive column.

The new road is not an ideal highway, but it serves the purpose. The big gray automobile trucks which carry the supplies by the ton have cut ruts so deep in the bottomless sand and gravel that at some places there is no longer clearance for the axles and parallel roads have been laid out alongside the old trail.

JOE is a dark bay, 16 hands high, heavy built, good style, has the best of eyes, feet and legs, and in fact a perfect model in every respect. He is the best and quietest work horse I ever saw, and a fine driver for women with perfect safety, so he needs no further introduction.

Money due when colt is foaled. All care will be taken to prevent accidents but not responsible should they occur.

JOE was sired by Cleveland Bay, and his first dam was a Lexington. Call and see my horse if interested or phone me.

## Worth Careful Thought

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Royal Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Other baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

Never sacrifice quality and healthfulness for low price.

## To Our Customers

For the financial welfare of our customers we venture to offer them a few words of what we believe to be good advice along business lines, not altogether for the purpose of forcing business, for our sales are showing a large volume at this time and we know that if we were so disposed we could make an added profit by holding the large stocks we own to day for higher prices, which are undoubtedly coming, but that is not our method of doing business, our business has not been built up that way. We never gamble, we sell our goods strictly on a basis of what they cost us, and we have all the necessary facilities for buying them cheap, further we desire to continue to render our customers real service, for a personal interest attaches to your patronage and that of every other person who buys goods from us that is not measured wholly by the amount we sell you or the profit we make on the sales. Our interest goes beyond this. Having made a very careful study of conditions, we feel that it is our plain duty to give our customers the benefit of our opinion, regardless of whether that opinion leads you to buy your goods at once or defer it. This season we urge upon every customer, just as strongly as we can, the advantage that will be gained as we candidly see it, by buying your spring and summer goods as early as possible. Only last week a wholesale shoe manufacturer looked through our shoe department, and said: "You could go through your shoe stock and mark them up to the prices they would cost you to-day, and make you a thousand dollars". We will not do that, we will only advance prices when we are forced to. Another shoe manufacturer writes: "One result of the war has been to create the most remarkable leather market within the memory of living man. The merchants who have bought liberally during the past several months are to be congratulated as shoes can not be duplicated now at anything like the prices formally paid". We have bought liberally of ALL lines of goods we handle during the last several months. It will surprise you if you will go through our stocks and see the remarkably small number of articles that bear any advance in prices, but such conditions can only last a short time, at the rate we are selling goods. Now we will be buying at the advanced prices and then you will have to do likewise. We never owned a more complete line of merchandise in all our departments than we do at this time, "take notice and govern yourself accordingly."

Russell & Co.

Doc Walker accompanied her as far as Nell.

Richard Shirley, 22 years old, son of Mr. and Mrs. R. W. Shirley, of near Milltown, who has been confined to his bed for five weeks with a complication of diseases, is some better.

Mr. J. P. Dohoney, who was in St. Anthony Hospital, Louisville, for four

weeks, returned home last Tuesday afternoon, accompanied by Mrs. Dohoney. He is looking fine, and all indications point to a permanent relief. Mr. Dohoney is well known throughout the county, and his many friends will be glad to learn that he will soon be himself.

Mr. J. V. White was driven to the

barber-shop last Saturday afternoon by his son-in-law, Mr. J. C. Strange, but he is far from being a well man.

The school year ends almost before you know it. April will arrive this week and about the middle of next month the terms close for the summer.

**WAR SITUATION**

The French have turned to the  
aggressive in the desperate strug-  
gle now in progress northwest of  
Verdun and have recaptured a  
part of the ground gained by the  
Germans in the renewal of their  
drive west of the Meuse, Paris  
announces.

In a two and a half hour bat-  
tle, the Crown Prince's armies  
by delivering massed attacks,  
succeeded in gaining a footing  
in the French lines at two points  
between Bethincourt and Dead  
Man's Hill, the dominating  
height which is the immediate  
object of the present German  
drive.

The French launched heavy  
counter attacks and by using the  
bayonet and hand grenades free-  
ly were able to recapture por-  
tions of the trenches the Ger-  
mans had taken.

The Germans made heavy sac-  
rifices in attempting to cut the  
French line and obtain posses-  
sion of Dead Man's Hill, Paris  
advises declare Possession of  
this height has enabled the  
French to sweep with their ar-  
tillery the territory over which  
the Germans were endeavoring  
to advance against the fortress.  
It is still in French hands, how-  
ever, the French War Office an-  
nounces, although the German  
line has advanced southward un-  
til it now takes in nearly the  
whole of Cumieres Wood east of  
the height.

Berlin officially denies rumors  
that the new German submarine  
campaign, under which armed  
merchantmen are regarded as  
warships, has been abandoned  
or postponed. On the contrary,  
it is now in full swing, it is de-  
clared.

Following the recent declara-

**Rank Foolishness.**

You occasionally see it stated that  
colds do not result from cold weather.  
That is rank foolishness. We true  
colds would be as prevalent in mid-  
summer as in midwinter. The mi-  
crobe that causes colds flourishes in  
damp, cold weather. To get rid of a  
cold take Chamberlain's Cough Rem-  
edy. It is effectual and is highly rec-  
ommended by people who have used  
it for many years as occasion required,  
and know its real value. For sale by

tion of war on Portugal by Ger-  
many, Austria has severed dip-  
lomatic relations with the Portu-  
guese Government, a Geneva  
dispatch says Austria actually  
has declared war.

The Berlin official report on  
the gain made by the German's  
during the Verdun battle west  
of the Meuse describes it as tak-  
ing place "west of the Corbeaux  
Wood and on the height of Le  
Mort Homme" (the dead man.)  
This coincidence with the French  
version of the fighting as to the  
sector in which the Germans  
made their advance.

Berlin declares, however, that  
the French counter-attack, al-  
though repeated four times,  
failed to result in any measure  
of success and that the losses of  
the assaulting forces were heavy.  
The Germans took 1,025 prison-  
ers in this action.

Dispatches from Lodon report  
the Dutch steamer Tubantia, of  
15,000 tons, from Amsterdam for  
South America, in a sinking con-  
dition off the Netherlands coast.  
Whether she struck a mine or  
was torpedoed has not yet been  
determined. The passengers  
and crew escaped in boats.

One of the frequent pauses  
which have characterized the  
German campaign for Verdun is  
again in evidence.

After having made their gains  
of Tuesday to the west of the  
Meuse in the direction of Dead  
Man's Hill, the Crown Prince's  
forces have not again advanced  
to the attack. Speedy resump-  
tion of the drive in this sector is  
not indicated as probable, as a  
slackening in the intensity of  
the bombardment has been re-  
ported.

Apparently there is an op-  
tion on the part of the French  
that the next German move may  
be made to the southeast of the  
fortress, in a flanking operation,  
as the French guns have been  
extremely active along the  
heights of the Meuse overlook-  
ing the Woevre Plain.

**Sign of Good Digestion.**

When you see a cheerful and happy  
old lady you may know that she has  
good digestion. If your digestion is  
impaired or if you do not relish your  
meals take a dose of Chamberlain's  
Tablets. They strengthen the stom-  
ach, improve the digestion and cause  
a gentle movement of the bowels.

It is officially declared in Ber-  
lin that the change in the head  
of the Ministry of Marine, in-  
volving the retirement of Admi-  
ral von Tirpitz, who is succeeded  
by Admiral von Capelle, signifies  
no change in the German Gov-  
ernment's submarine policy.

To-day's German official state-  
ment conforms with that of Par-  
is as to the unchanged situation  
north of Verdun. Its text,  
however, apparently indicates  
that possession of Dead Man's  
Hill, on which the Germans re-  
port an advance, is claimed by  
the German War Office. The  
statement speaks of further at-  
tempts by the French "to dis-  
pute our possession of the height  
of Le Homme Mort (Dead Man)  
and our positions in the wood to  
the north." These attempts are  
declared to have failed.

Apart from the Verdun region  
there has been little in'antry ac-  
tivity on the western front ex-  
cept in the Champagne. There  
the French made several attacks  
on the German position near St.  
Souplet; west of the Souain-Som-  
me-Py road which Berlin claims  
without success, the French los-  
ing more than 150 men taken  
prisoner, besides two machine  
guns.

## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

## TANLAC ROMANCE NOW FULLY TOLD

Its Launching and What Inspired It Is at Last Explained.

"Every few years someone suggests something that will tend to better our condition, whether it may pertain to our business, our knowledge, convenience, or health, or our social state," declared L. T. Cooper recently.

"It has been my pleasure to offer Tanlac to the world," he continued. "I presented Tanlac on its merits, knowing full well that it would prove satisfactory if properly tested."

"Confident as I was of the reception Tanlac would receive, I confess I was hardly prepared for the wonderful popularity into which it at once sprang. When it is considered that just nine months to the day after Tanlac was announced, one million bottles had been sold, it can be understood that when the story of Tanlac is called a romance of the business world it is quite true."

"Tanalac appeals particularly to the best people everywhere—people who are able to judge carefully and to render a just opinion of its merits. Upon the thousands of indorsements of such men and women Tanlac's astonishing success has been based. Great as is the demand for Tanlac now, I really feel that the country, as a whole, is only just awakening to it."

"Tanalac, which is the joint product of Herr Joseph Von Trimbach, the noted German chemist and myself is, I believe, the most effective remedy known for ailments of the stomach, liver and kidneys and for catarrhal affections of the mucous membranes. "It is compounded of roots, herbs, barks and flowers, many of which come from remote parts of the world, and it is free from the mineral taint feared by many people."

"I have no doubt that Tanlac will be as successful in your city as it has in every other in which it has been introduced."

Tanalac now may be obtained in Columbia, at the Page & Hamilton drug store, where it is fully explained.

BALL CHIEF 3806 A.S.H.R.

For the Season of 1916 I Will Offer for Public Service

**BALL CHIEF, 3806, A. S. H. R.**

AT  
\$25.00

TO INSURE A LIVING COLT

**DESCRIPTION:**—Ball Chief, in color is a rich red chestnut, star and snip, left hind pastern white, 7 years old, 16 hands high, has fine head and beautiful long slender, tapering ears, has an extremely long thin blade neck, that comes out of his perfectly formed withers in faultless fashion and tapers perfectly to his beautiful head in which are set a pair of large expressive eyes. He has a high well set natural tail, which he carries at all times to suit the most fastidious. He has a good short back and a most excellent set of feet and legs. He is nicely broken and gaited, and goes all the gaits in a most attractive manner.

While he has not been extensively shown, yet, he has contended for honors in some of the best congregations of show horses and his many winnings are proof of his powers to meet the requirements in the best show rings. As a breeder he is in the front rank, transmitting to his get, form, size, style and manner of going that are his characteristics and which make, not only the show animal, but the general utility horse—the horse that will always live in the fancy of men and perform the service in that manner that will command a fancy price.

BALL CHIEF has for his sire the champion Montgomery Chief 1361, by Bourbon Chief 976, by Harrison Chief 1606, he by Clark Chief. 1st dam Louise Cabell 5900, by Red Squirrel 53. 2nd dam Juella C. by Jewell Denmark 70, he by Washington Denmark 64. 3rd dam Dew Drop, by Artist 75. 4th dam by Cabell's Lexington. He has proven himself a breeder of high-class and is in every way worthy of your careful consideration.

### Raven Bird 6550 A. S. H. R.

By Red Bird G. 1906, he by Joe Brown 1955, he by Cabell's Lexington 3234, he by Gist's Black Hawk. 1st dam Aethalia Thompson 13088, by Ottawa 232, by Red Squirrel 53. 2nd dam Nellie Ray, by Thompson's Lexington, he by Cabell's Lexington. 3rd dam Stella Denmark by Caldwell's Denmark. 4th dam Bonnie Brown, by Nat Brown 8L.

Raven Bird is a beautiful mahogany bay, full 16 hands high, 8 years old, he has the best of eyes, feet and legs, a beautiful head and neck, a very well set tail, which he at all times carries to perfection. He possesses extreme speed, style and action, and the most perfect disposition of any stallion I have ever seen or handled. He has five distinct gaits, and goes them all in a most attractive manner. You will note from his breeding that he has for his sire the famous old Red Bird, who has perhaps sired as many high-class show and sale horses as any stallion in Kentucky, and traces on his dam's side to Cabell's Lexington, conceded by all horsemen to be one of the greatest sires that ever lived. Raven Bird is one of Red Bird's greatest sons and has proved himself an excellent breeder, and we have every reason to believe that, if he is given an opportunity he will make a reputation equal to that of his worthy sire. Service fee \$10.00 to insure a living colt.

I am prepared to take care of mares sent to me from a distance. Mares pastured at ten cents per day or fed at \$10. per month. In all cases money is due and must be paid when mares are bred to other stock, traded, parted with or removed from neighborhood. All stock will receive our personal attention, and due care will be taken to prevent accidents or escapes, but will not be responsible should any occur.

### Changes in School Law.

Hereafter rural school trustees will be elected on the first Saturday in October instead of August, and county boards of education will organize in March in the office of the county superintendent and the incumbent trustees will hold over until March, 1917. This is included in the school legislation enacted by the recent session of the General Assembly. The census this year will be the last until 1918, excepting in first and second-class cities, as the law provides for a biennial scholastic census, which will save \$40,000 to the State every two years.

Graded districts must maintain a high school or pay tuition of common school graduates to the county high school, and two or more adjacent counties may maintain joint high schools under the new law.

The changes in the law, besides codifying them so that conflicts are weeded out and the provisions are plain and easily found, are numerous, affecting changes in text books, taxes in graded districts, certification of nor-

mal pupils to teach, the compulsory school attendance law, the University of Kentucky, normal schools, Kentucky Normal and Industrial Institute, the Department of Education and an insurance fund for second and first-class city schools.
